Promoting Community Stoma Care Services to local Clinical Commissioning Group’s (CCG’s)

Hyacinth Thompson – CNS, Stoma Care
Queens Hospital, Romford, Essex
Aim

❖ To demonstrate the importance of working collaboratively as a team across both hospital sites.

➢ Queens Hospital – Barking, Dagenham and Havering CCG’s

➢ King Georges Hospital – Redbridge CCG

❖ Working collaboratively to proactively engage with the local CCG’s to promote the services within the community and acute settings.
Method

- NHS Barking Dagenham Havering and Redbridge (BHR CCG) Medicine Management working party has a plan to:

  - Provide a strategic overview – developing a strategy for optimising the use and management of medicines within the local health economy.

  - Optimise the use of medicines – improving patient outcomes and increasing productivity through governance and assurance of safe, evidence based, cost-effective medicines usage in primary and secondary care.

  - Establish effective partnerships – linking in with local, regional and national partner organisations to ensure a coordinated approach to medicine usage across health and social care.
Established connections with the Protected Teaching Initiative (PTI) for General Practitioners, Practice Nurses and Practice Managers.

Face to face meeting with the Chief Pharmacist and Deputy Chief pharmacist from the CCG’s. Demonstrated the pathway of care and cost saving made by Annual Reviews and patient education in stoma appliance usage.

Demonstrated effective use of PROVIS report.

Provided detailed analysis of cost savings from “Super Clinics”
“Super Clinic” - Audit Results

Jan – April 2017

- 88 patients reviewed in the super clinics during the initial pilot.
- 54 prescription changes made
- Total savings was £26,500

Several patients had a DET score of 2-9 and following reviews of current appliance, accessories and template changes DET scores have been reduced to between 0-2.

  - 2014/15: 13.8%
  - 2015/16: 6.5%
Conclusion

❖ Demonstrated worthwhile cost savings at an estimated value of £26,500 from January 2017 – April 2017.

❖ Before our next planned meeting with the Medical Management team, we will continue to audit appliance and accessory usage during our super clinics.

❖ We have a plan to meet with the GP’s during their end of year PTI, to allow our GP’s a better understanding of:

  ➢ The Secure Start Pathway.
  
  ➢ Cost savings that can be made to their individual practice’s.
  
  ➢ Educate GP’s to have a better understanding about stoma care.
  
  ➢ Educate prescribing clerks regarding stoma care prescribing guidelines.
Thank you for listening
