

The Insides Company

Job Title

Clinical Lead Stomal Therapist – Part Time Contract Role – UK & EU

About The Insides Company

The Insides Company is an exciting and innovative medical device emerging company that has a focus on helping surgeons and patients in the colorectal sector. Our range of products benefit patients by enabling a treatment process called chyme reinfusion, in which a patient's chyme is reinfused from their stoma bag into the distal limb of their gut.

Our success is due to an experienced team in the colorectal medical device industry along with a supportive, collaborative and dynamic culture that is centered around innovation and collaboration.

About the Role

As the UK & EU stoma nurse you will be responsible for providing clinical support to our growing list of customer sites to provide clinical guidance and education to medical teams regarding the correct and best practice use of our products. You will also be responsible for assisting patients in using our products, including being a point of call to assist patients who are in need of clinical support.

Your expertise in the stoma care industry will ensure that The Insides Company's products are being deployed strategically, and that any learnings or issues are identified and accurately communicated back to the engineering and clinical team for resolution. On top of that, your proactive and helpful nature will ensure patients and their health professionals will be willing to continue to work with the company and trust our products and support processes.

About You

- Minimum 5 years of full-time experience in a stoma therapy role with community experience a bonus.
- Must have a stomal therapy qualification. Advanced Nursing Post Grad a bonus.
- Ideally have a strong understanding of the NHS system and knowledge of the UK stoma industry.
- Has some experience with public speaking and providing education to range of disciplines and group sizes.
- Understanding of medico-legal and ethical responsibilities.
- Excellent working relationships with interdisciplinary team.
- Leadership qualities, ability to work autonomously and be pre-emptive.
- Passionate about research that improves nursing care and patient outcomes.
- Flexibility and ability to work and travel to various locations in the UK and EU.

We look forward to hearing from you and hope you will be interested in becoming part of our professional team.
